

"CONNECT-ED"

Diocese of Worcester School Messaging System

As we did last year, St. Bernadette School will be contracting with the *Connected-Ed Messaging System* in order to contact our parents whenever there is a change in our daily school schedule. *Connect-Ed* will call each of our parents with an announcement such as early closing, snow days, utility failures, or any other situation that would require parents to pick up their children at a time other than regular dismissal. The system may also be used to notify parents of important events.

Please list all the phone numbers you would like to be called by the *Connect-Ed Messaging System*. You may list as many as 6 numbers including cell phones. Connected-Ed will call each number you list. In addition to phone numbers, we send electronic information to parents via e-mail, i.e. the Virtual Friday Envelope, weekly updates from teachers and other important communications. **Please list below all the e-mail addresses you wish these school communications to be sent.**

Complete the form below and return it to school **not later than Friday, August 12, 2011**. If we do not receive a form back we will automatically use your work number (or home phone if not employed) listed on your Emergency Form.
